Expel the Hindus from the Arabian Peninsula

While Hindus are committing crimes against Muslims in India, Pakistan and Afghanistan, their taghut visits the Arabian Peninsula to get honored there and to have the tawaghit of the Peninsula renew their loyalty to him. They do so after they filled the land of the Peninsula with his fellow mushrikin who respect not in Muslims the ties either of kinship or of covenant.

The visit of the cow worshipper Modi to his brethren, the tawaghit of the Peninsula, comes after his government announced the seizure of the entire territory of Kashmir to the Hindu state. It also comes after tens of thousands of his army personnel gathered there and after laws were imposed on the people of Kashmir to limit their movements and prevent them from mounting any opposition to the recent Hindu decision. The kafir governments everywhere welcomed this decisions, while the murtadd Pakistani government remains silent, after wasting the land of Kashmir with the help of alleged jihadi factions and organizations. The reality of these factions and organizations is that they are nothing more than militias directly following the Pakistani intelligence agencies that move them to the direction they wish.

Whoever pays attention to the recent approach between the Hindus and the tawaghit of the Peninsula will realize that it is not isolated from the recent events in the region, especially the escalating struggle between them and the tawaghit of Iran. Adding to that is their big fear regarding the American withdrawal from the Gulf. They convince themselves and their foolish followers that this friendship might help them in their animosity against the Rafida of Iran, forgetting that the Hindus are close friends and trade partners with the Iranians. In addition, they share with the Iranians their animosity towards the Sunnis, which, in the long-term, will make them potential allies.

The enforcement of that approach might lead to the establishment of bases of the Hindu army in the Arabian Peninsula, which will build their economical and human influence there, where millions of Hindus live in the Emirates, Bahrain and Kuwait. Some of those Hindus are owners of immense capital. Allowing them to build their temples and practice their religion publicly, moreover, the participation of some of the murtaddin in their practices, are nothing but signs for this increasing influence, and it will not stop until they will compete with Muslims in the Arabian Peninsula in every facet, and they will soon replace the Crusaders in dominating the region. This is a matter that Muslims should reflect upon deeply.

Although the land of Islam in India has lost, the hatred and animosity of the Hindus against the Ummah of Islam will not stop at the borders of Kashmir, Pakistan and Afghanistan. Their hatred for the Muslims of Sind, Khurasan and Mongolia is historical, because Allah destroyed with the hands of the Muslims their idols and temples until they were saved by the murtadd rulers, who made them close to them and opened the door for the domination of Crusaders over India to enable them over Muslims later.

However, their hatred goes beyond that, to reach all Muslims around the globe. Their greed goes far to include the Arabian Peninsula, its wealth and its people. This is a matter that should be prevented by Muslims of that land. There is no doubt that carrying out jihad against the tawaghit of the Peninsula, seeking to topple them and establish Islamic law, is among the most important methods to protect Muslims lands everywhere. However, at this time, carrying out jihad against the Hindus who live in the Arabian Peninsula is a very important matter in all aspects.

First, they are mushrikin that need to be expelled from the Arabian Peninsula and they should not live there, as the Prophet (PBUH) said: "Expel the mushrikin from the Arabian Peninsula." (Agreed upon).

If they refuse to leave, then fighting them until they leave is an obligation, especially after they publicly practiced their mushrik religion and started to call Muslims to join it.

Likewise, they are considered as combatant, and there is no covenant nor truce with them. Those covenants granted to them by the mushrik tawaghit rulers do not apply, because those rulers themselves are combatant and carrying out jihad against them is an obligation, as Allah says: "Then kill the mushrikin wherever you find them" [At-Tawbah 5].

On the other hand, they continue fight Muslims in India, take their lands, destroy their mosques, prevent them from worshiping their Lord as it should be, continuously threaten war against Muslims in Pakistan, support kafir governments in Afghanistan, Bangladesh and Sri Lanka, and declare their animosity against Muslims. Allah says: "[Fighting in] the sacred month is for [aggression committed in] the sacred month, and for [all] violations is legal retribution. So whoever has assaulted you, then assault him in the same way that he has assaulted you. And fear Allah and know that Allah is with those who fear Him" [Al-Baqarah 194].

Hence, ignoring the increase of their numbers in the Arabian Peninsula is a potential danger to Islam and Muslims in that land, and war against them is a help to Muslims in Kashmir and India.

All these reasons are a justification to incite Muslims of the Arabian Peninsula to fight the Hindus and seek to kill them, seize their wealth and cause fear in their hearts in all possible ways, until we force them to leave it in humiliation and prevent them from living in it and enforce their influence there. That will also weakens the stance of their masters the tawaghit whom they seek their satisfaction and achieve their interests.

Despite the fact that the mujahidin of the Arabian Peninsula should focus more on targeting the heads of the political, financial and religious institutions, that does not mean they should stop targeting anyone of them, no matter how worthless he is. Causing harm to any of them will cause terror and fear in the hearts of the rest, by Allah's permission.

Similarly, the mujahidin should make sure to purify the land of the Arabian Peninsula from their shirk temples and destroy their idols. They should also show their animosity to them, seek to disturb their lives and treat them badly, in a way that prevents them from making their living and having peace of mind. Do not consider any act of goodness as being insignificant. "And Allah will surely support those who support Him. Indeed, Allah is Powerful and Exalted in Might" [Al-Hajj 40].
